SOLID SOAPS COLLECTION

In accordance with the concept **Care About Earth**, we have developed a **Circular Economy** project, optimizing and extending the life cycle of our **Solid Soap**, allowing them to be reused as soap for domestic and/or industrial use.

We intend to help to provide entirely **free of charge** the reuse of solid cosmetics to our customers.

The project - **Solid Soaps Collection** - consists in collecting the solids in the Hotel and transporting them to the processing unit that will give them a new use.

Groupe GM supplies the material - Bins and Cotton Tote Bags - for the logistics of storing the soaps in the hotel and ensures their transport, all free of charge.

• To join, the hotel must formulate its membership to the Groupe GM group by sending an e-mail to apoioclientes@groupegm.com

• You can order buckets and cloth bags according to the following criteria:

- up to 50 rooms - 1 bucket
- from 50 to 100 rooms - 2 buckets
- 100 to 200 rooms - 3 buckets
- 200 rooms or more - 4 buckets
- 2 cloth bags per floor/cleaning crew

The request for collecting solid soaps (transportation from the Hotel to the processing unit) should be made to the GGM through the contacts:

apoioclientes@groupegm.com

+351 225 574 387

It is necessary to provide information on the quantity collected in kg.

At the time of picking up, soaps should be packed in one or two strong and resistant plastic bags to avoid the risk of breakage during transportation.

The bins and cotton tote bags remain at the hotel for internal logistics.

The Project is operative in the Iberian Peninsula with the exception of the islands (the Canary Islands, Balearic Islands, Azores and Madeira).
